Need to Store your Trailer, We have Monthly or Annual Spots Available. Fenced, Monitored and Secure

12386 E. Hwy 40
Silver Springs, FL 34488

In-Shop or On-Site Service Available

Trailer Tips

Reseal Roof by Third Year

- resealing ensures your warranty
- keeps the inside cooler during summer
- protects from the elements
- lap seal should be checked semi-annually depending on the condition
- roof needs to be cleaned at least 4 times a year to maintain warranty as well as to prevent leaks

Causes of Frost Build-up on Air Conditioners

- improperly installed cold control
- low refrigerant
- plugged or restricted capillary tube
- defective cold control
- defective relay board
- improper air flow

Furnaces

- should be inspected twice a year
- check more frequently furnaces that have not been used

Water Heaters

- cleaned once a year & flushed
- if you do not have hot water check the circuit breaker bypass valve
